25%

Share of nuclear workers that are veterans

5

Multiple unit small modular reactor plants planned for operation by 2035

250

Number of additional U.S. jobs created by 100 nuclear jobs

Nuclear News

Idaho hosts Idaho National Lab, which conducts significant research to advance nuclear energy and employs over 5,000 people.

The Idaho legislature passed a bill to recognize nuclear as a clean energy technology in 2023.

WHY NUCLEAR?

Nuclear powers America's cities and towns with reliable, 24/7 clean energy.

Nuclear energy creates jobs and supports local communities, with each of today's large operating reactors providing 500 to 800 jobs.

Nuclear energy is the largest source of emissions-free energy in the United States.
