Share of nuclear workers that are veterans

5

Multiple unit small modular reactor plants planned for operation by 2035

250

Number of additional U.S. jobs created by 100 nuclear jobs

Nuclear News

The Montana legislature passed a resolution to study the feasibility of small modular reactors and released the study in 2022. The state repealed their nuclear moratorium in 2021.

U.S. Congress supports nuclear & other clean energy in the 2021 Bipartisan Infrastructure Law and 2022 Inflation Reduction Act.

WHY NUCLEAR?

Nuclear powers America's cities and towns with reliable, 24/7 clean energy.

Nuclear energy creates jobs and supports local communities, with each of today's large operating reactors providing 500 to 800 jobs.

Nuclear energy is the largest source of emissions-free energy in the United States.
