

# Used Fuel Management Conference

May 12 –14 • Savannah

[www.nei.org/ufmc](http://www.nei.org/ufmc)

**Sponsor and Exhibitor  
Opportunities**

## GENERAL INFORMATION

### NEI'S USED FUEL MANAGEMENT CONFERENCE

brings together a worldwide network of people, businesses and organizations working in used nuclear fuel and related fields. Industry professionals gather to learn about the latest products, services and innovations for used fuel, decommissioning, transportation and more.

### REACH YOUR AUDIENCE

Increase your brand awareness, attract new clients and enhance your business relationships with current customers. Network and demonstrate your solutions to U.S. and international nuclear energy utilities, suppliers, consultants, government officials, regulators, policymakers, NGOs and scientists interested in the following:

- Used fuel storage
- Disposal
- Decommissioning
- Advanced reactors
- Recycling
- Transportation
- Nondestructive testing technology
- Aging management inspection
- License renewal.

### WHEN

**May 12-14**

For more information and to purchase a sponsorship or exhibit, visit [nei.org/ufmc](http://nei.org/ufmc)

### WHERE

#### Savannah Convention Center

One International Drive  
Savannah, GA 31402  
912.447.4000

All meeting related activities will take place at the Savannah Convention Center. The Center is a short walk from the Westin Savannah.

### HOTEL

#### Westin Savannah

One Resort Drive  
Savannah, GA 31402  
912.201.2000

Rate: \$274 single/double, \$25 resort fee

Book your hotel reservation by **Friday, April 17** and identify yourself as an attendee of the Nuclear Energy Institute to secure the group rate.

### CONTACT US

The Nuclear Energy Institute offers numerous opportunities at its events throughout the year to help enhance your business visibility. Take advantage of these opportunities and make meaningful connections with targeted exposure.

## AUDIENCE PROFILE

Your brand will connect with leaders shaping used fuel strategy, regulation, and long-term nuclear solutions.

### Utility Used Fuel, Isfsi & Regulatory Professionals

Program managers, engineers, and regulatory affairs professionals from nuclear utilities responsible for onsite spent fuel storage, ISFSI operations, license renewals, aging management programs, and long-term used fuel planning.

### Engineering, Technical & Consulting Experts

Engineers, safety analysts, and consulting firms supporting licensing, safety analysis reports, inspection and nondestructive examination (NDE), materials performance, and regulatory compliance.

### Dry Storage, Transportation & Fuel Cycle Vendors

Executives, program leaders, and technical experts from companies delivering dry cask systems, transportation packages, recycling technologies, and fuel cycle solutions.

### Decommissioning & Waste Strategy Leaders

Professionals managing spent fuel at shutdown sites and leading post-operations storage strategy, cost planning, and long-term waste management.

### Advanced Reactor & Fuel Cycle Developers

Developers and program teams working on next-generation reactors, advanced fuel designs, recycling approaches, and future fuel cycle integration.

### International Storage & Disposal Program Leaders

Representatives from international utilities, national waste management organizations, and regulatory bodies advancing long-term storage and disposal programs.

### Research Institutions & Academic Leaders

National laboratory scientists, university faculty, and workforce development leaders conducting used fuel research and advancing nuclear engineering education.
